## Draft Findings - Competition

5. Parents' and guardians' demand for centre based day care is driven by a complex combination of factors. Parents look to prevailing market prices, however informal measures of quality are key considerations.

## Draft Findings - Profitability, viability and quality

9. On average, large centre based day care and outside school hours care providers appear to be profitable and financially viable.

Do Not Agree

Please provide further comment if relevant:

There are far too many childcare centres in certain areas causing strain on viability. The government has a duty of care and needs to place a cap on where new builds are

10. Occupancy is a key driver of revenue and therefore profits and viability.

The fact that areas are saturated with Long Day Care is affecting quality Also RTO need to be accountable many are passing students who are not competent in basic care requirements

### Draft Recommendations - Existing regulatory arrangements

Draft recommendation 1 - The ACCC recommends that the Australian Government reconsider and restate the key objectives and priorities of its childcare policies and supporting measures, including the relevant price regulation mechanism.

Draft recommendation 2 - The ACCC recommends further consideration and consultation on changes to the Child Care Subsidy and existing hourly rate cap mechanism, to simplify their operation and address unintended consequences, including on incentives and outcomes.

Do Not Support

Please provide further comment if relevant:

Draft recommendation 2 (a) - Consideration be given to determining an appropriate base for the rate cap and indexing the cap to more closely reflect the input costs relevant to delivery of childcare services. This could include consideration of labour costs as well as the additional costs associated with providing childcare services in remote areas and to children with disability and/or complex needs

Do Not Support

Please provide further comment if relevant:

Draft recommendation 2 (b) - Consideration be given to changing the hourly rate cap to align with the relevant pricing practice for the service type. This could include consideration of a daily fee cap for centre based day care. Consideration will need to be given to setting and monitoring minimum requirements to avoid creating incentives for childcare providers to reduce flexibility or quality.

Please provide further comment if relevant:

Draft recommendation 2 (c) - Consideration be given to removing, relaxing or substantially reconfiguring the current activity test, as it may be acting as a barrier to more vulnerable children (for example, households with low incomes or disadvantaged areas) accessing care and creating a barrier to workforce entry or return for some groups. An alternative would be to consider a specific entitlement, such as a certain number of days of care.

Draft recommendation 2 (d) - Consideration be given to including a stronger price and outcomes monitoring role by government, supported by a credible threat of intervention, to place downward pressure on fees.

Draft recommendation 3 - The ACCC supports reconsideration of the information gathered for and reported on StartingBlocks.gov.au so that it is better focused on meeting parents and guardians' information needs, and balanced against the costs of collecting and publishing information. This could include:
