Digital Platforms Regulator Forum (DP-REG) Updates		
DP-REG	**Workstreams**	**Status Update**
Digital Technology Working Group	• Literature summary – Harms and risks of algorithms • Pilot technology examination (horizon scanning) – large language models • Joint submission – DISR discussion paper on AI regulation	Literature summary – Harms and risks of algorithms • The working group is in the process of finalising its algorithms literature review for publication. The literature review has been reviewed by eSafety's editorial team and will be published on the new DP-REG microsite, which is currently being developed. Pilot technology examination – Large Language Models (LLMs) • The working group is updating its draft pilot technology examination, focused on generative AI (such as large language models and text-to-image generators). • The working group is aiming to publish the final updated pilot technology examination around mid-September, when the new DP-REG microsite is active. Joint submission - DISR discussion paper on AI regulation On 25 July 2023, the working group lodged its joint submission to the Department of Industry, Science and Resources Discussion paper on Safe and responsible AI in Australia.
