---

Good afternoon Naomi

Redland City Council is responsible for the supply of drinking water and sewerage services to the Redlands Coast community for which the supply of Gaseous chlorine is used for the drinking water supply and the disinfection for treated sewage effluent. Chlorine is essential for the safe supply of drinking water, protection of the environment and protection of public health.

Redland City Council fully supports the Application for Authorisation (AA100065) submitted by WSAA and its members.

Kind regards

**Mike Oakey**

**Service Manager – Wastewater Operations**

City Water Operations

Redland City Council
