Canberra:2601

Dear Sir,

The Australian people are totally opposed to the proposed introduction of two mail deliveries a week, & I protest.

This is unheard of, in the civilised Western World. There shall be no lowering of standards in my country.

In the late 1940's and throughout the fifties, we got four suburban mail deliveries a day.

I can remember when stamps, cost a penny halpenny. For this money we had four mail deliveries a day.

Now this incompetent creature, you have running Australia Post, proposed to reduce the service and increase the charges to a dollar, & I protest.

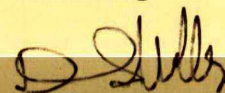

Moreover this creature, running Australia Post, received a one million dollar bonus. This is an outrage, an abuse of power, and a scandal.

That man should be sacked. I call for the sacking of this creature running Australia Post.

I note in passing that he gave the bonus away to a community centre on the Meribeynong River. Lovely as that may be, it is the Australian people who use Australia Post; ie the Australians who paid for this community folly.

Australia Post, is getting more overseas packages, than ever before; yet the incompetent creature, running it is unable to turn a profit.

Yours faithfully,

ACCC
