Dear Ms Goldwater

Public inquiry into final access determinations for fixed line services—primary prices

Please find attached:

- a document setting out in detail the source and justification for the FY2014 (base year) operating expenditure that Telstra has identified as relevant to, and necessary to include in, the ACCC's Fixed Line Services Model (**FLSM**);
- an amended FLSM version 1.2; and
- a document setting out the differences between the previously submitted FLSM version 1.1 and the attached amended version 1.2.

The above documents are confidential.

Given the quantum of confidential material within these documents, it is not intended that redacted versions will be provided for publication. However, these documents will be provided to individuals entitled to receive such information pursuant to the confidentiality regime which has been set up with Telstra for the purposes of the final access determination inquiry.

This letter may be published on the ACCC's website to alert interested parties to the availability of these reports.

Yours sincerely,

Jane van Beelen
Executive Director – Regulatory Affairs
Corporate Affairs
