

**FIXED LINE SERVICES FAD INQUIRY: REQUEST FOR FURTHER INFORMATION 3 JUNE 2015 – IINET
RESPONSE
Public version**

FIBRE BASED DTCS TAILS

1. Do you purchase fibre based DTCS tails from Telstra or any other providers to provide retail voice-only services to end users in CBD areas?

iiNet has DTCS services but none of these services are used to provide retail voice-only services.

2. If yes, how many fibre based DTCS tails services do you purchase? How many voice-only end users do you supply using fibre based DTCS tails in the CBD areas? Are you likely to purchase fibre based DTCS tails services from Telstra or any other providers next year? Please indicate the number of services you plan to purchase (if any).

N/A

3. Please outline, on a per line/services in operation basis, the charges you pay for purchasing fibre based DTCS tails services, any rebates against these charges and the conditions that must be met to receive any rebates. (Please indicate if these charges are determined in accordance with the DTCS FAD).

[c-i-c]

4. Please outline how you use DTCS tail services to supply fixed voice services. For example, what equipment do you use, what (if any) other services do you acquire to supply end users? Does the use of this service require any activity in the exchange or at the customer premises? Are there any minimum supply requirements for it to be economic for you to use DTCS tails to supply voice only services to end-users? If yes, please outline what these minimum supply requirements are.

N/A

5. Are there any minimum supply conditions on the supply of fibre based DTCS tails services? This could include contract length, minimum number of voice lines per address, or purchase requirements.

[c-i-c]

6. Please outline the costs/charges incurred by your customers to switch to a service supplied using fibre based DTCS tails. Costs/charges might include the initial costs incurred for the purchase or set up of any necessary end-user equipment (and the monthly supply charge).

N/A

MOBILE EFTPOS

7. The current total number of services in operation (SIOs) for mobile EFTPOS and fixed line EFTPOS in CBD areas only, that you supply.

iiNet does not supply mobile EFTPOS nor fixed line EFTPOS directly to customers. However, there may be instances where PSTN services supplied by iiNet are used by our customers for EFTPOS. iiNet does not track this.

8. The current *overall total* number of SIOs (including data for CBD and non CBD areas) for mobile EFTPOS and fixed line EFTPOS, that you supply.

N/A

9. Do you offer mobile EFTPOS as a bundled service? If yes, which other services is it provided with? Are there minimum purchase requirements and what are they?

No

10. Please outline the set up costs/charges incurred by customers to install and use mobile EFTPOS (eg. customer premises equipment).

N/A

WHOLESALE ADSL

11. Do you supply wholesale ADSL? If so, please provide the current number of services in operation that you supply.

[c-i-c]

12. If no, are your network and business systems configured to supply wholesale ADSL and meet the SAOs? If no, what would be the costs to do so?

[c-i-c]
