Fixed Line Services FAD inquiry on non-price terms and conditions

Macquarie Telecom Pty Limited ("Macquarie") wishes to make a further short submission to the Australian Competition and Consumer Commission ("ACCC") in response to the ACCC's consultations on the price and non-price terms of the new final access determinations (FADs) for the regulated services.

It is Macquarie's view that there needs to be established a 'comprehensive FAD' setting out, as much as is practical, all non-price terms and conditions for the acquisition and supply of these regulated services.

Macquarie notes the letter received from the ACCC seeking stakeholder comment on the draft terms and aims to respond fully to that document early in the new year.

Should you have any queries in relation to this matter please feel free to contact me.

Yours sincerely

Matt Healy
