4 April 2008

Mr Graeme Samuel
Chairman
Australian Competition and Consumer Commission
GPO Box 3131 CANBERRA ACT 2601

Dear Mr Samuel

As the Member for Thuringowa and Minister Assisting the Premier in North Queensland, I would like to formally make a submission to the Australian Competition and Consumer Commission (ACCC) national inquiry into grocery prices.

After receiving numerous complaints from community members regarding the increase in grocery prices in North Queensland, I established a price watch initiative to monitor grocery prices in Townsville. My wife Jennifer and I, and a number of community volunteers, have kept a database record of the food price fluctuations over the past year and also the differences between Townsville's major grocery stores, IGA, Coles and Woolworths. A copy of the database is attached for your information and to assist with the ACCC inquiry.

The concerning results from the database include:

- * A loaf of bread that was \$2.48 in February 2007 increased to \$3.60 (Woolworths) and \$3.60 (IGA) in February 2008.
- * A two litre full cream milk that was \$2.93 in February 2007 increased to \$3.39 (Coles) and \$3.42 (IGA) in February 2008.

As I am sure you would agree, bread and milk are staple items for the average family and an increase such as this has a huge impact on the weekly grocery bill. I cannot see how an increase of this size in one year can be justifiable and the reason for the disparity between the different grocery stores is highly questionable.

The price rise and disparity is not restricted to only staple items such as bread and milk, it is in fact evident throughout the results. Examples from the database include:

- * Milo was \$7.99 in February 2007 and increased to \$8.79 (Woolworths) and \$9.19 (IGA) in February 2008.

* Cordial was \$2.99 in February 2007 and increased to \$3.29 (Woolworths) and \$4.11 (Coles) in February 2008.

Noticeable increases evident from the database include price rises for everyday items such as cheese, bolognaise sauce, rice, toothpaste, baked beans and numerous others.

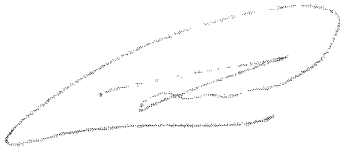

Residents of Thuringowa and North Queensland can't be expected to accept these increases without explanation. It's just not fair on the average family.

The attached database is just one example of evidence of the grocery price rise experienced by North Queenslanders. As I identified in my letter to you of 31 January 2008, a Queensland Health survey released in October 2007 revealed a 54% increase in local food prices since 2000. The survey found that grocery prices in Townsville were among the highest in Queensland. I understand that Queensland Health has also made a submission to the ACCC national inquiry which outlines these results and I trust that you will consider these findings.

On behalf of the people of Thuringowa and North Queensland, I ask that you to take into account the points raised in this letter and the results from the attached community database which many hands have helped to collate.

I look forward to the results from the ACCC inquiry and I hope that residents of Thuringowa and North Queensland can look forward to fair and reasonable grocery prices in the future.

Yours sincerely,

Hon Craig Wallace MP
Member for Thuringowa
Minister for Natural Resources and Water and
Minister Assisting the Premier in North Queensland
