Dear Sir/Madam

**Australia Post Application for Stamp Price Increase**

For many years Australia Post has failed to properly frank stamps that have been posted. This is evident when larger letters are posted. Check your own mail.

The consequence of not franking stamps has been pointed out to Australia Post many times and letters with unfranked stamps continue to be delivered. Further stamp price increases should be deferred until this problem is fixed. When stamps are not franked they can be re used.

While Australia Post knowingly ignores this potential loss of revenue, no price increase for stamps is justified.

Yours faithfully,

IS ANYBODY LISTENING OUT THERE
