

Caled Containers Pty Ltd strongly objects to the proposed price increase by Australia Post.

1992-2002 Price remained @ 45c for 10 years  
2003-2008 Price remained @ 50c for 6 years  
2009 Price @ 55c

As you can see from above the price had remained constant for many years – how can Australia Post justify 2 prices rises in such a short time span.

The price rise will have a negative impact on small businesses.
