Re-supposed increase
IN post prices

Dear Mr Anthony Wing.

I am aware that your department will be considering to allow an increase in the postage stamp price.

Which I strongly object to and if it were more widely known about more folk would be objecting to the unfairness of a price hike at this time.

You must be aware that only last year approval was given for a 5^c price increase, so be it. But go again this year, get real, only last year I read in the paper the postal Dept made 500 Million Dollar's profit. That's in a one year period, and now their crying poor mouth.

In my opinion they don't need an increase. And hope fully you, sir will agree with me. Sir I am a pensioner, I can't send FAX's. or email's. I only know how to write a letter and I can't afford an increase. You might say I am a percentage of our population in the same boat. So I am not speaking just for myself. Please Mr Wing don't approve an increase in our postage stamp.

With respect.

yours faithfully.

Lesley Smith (Mrs.)
