Subject: AEMO Interim Authorisation dated 17 April 2020 - report for period 22 - 28 June 2020

We refer to condition 1 of the interim authorisation granted by the ACCC on 17 April 2020 (**Interim Authorisation**) and the reporting protocol dated 8 May 2020.

Set out below is AEMO's report for the period 22 - 28 June 2020 (**Reporting Period**).

This report can be published on the public register.

1. **Material contracts, arrangements, understandings or decisions that rely on the Interim Authorisation**

No material contract, arrangement or understanding that relies on the Interim Authorisation was entered into during the Reporting Period.

A decision that relies on the Interim Authorisation was made during the Reporting Period. A meeting between AEMO, CS Energy, CleanCo, Department of Natural Resources, Mines and Energy (Queensland), Interger, Powerlink and Stanwell (together, **Meeting Participants**) was held on Friday 26 June. The purpose of the meeting was to discuss any potential issues that may arise in relation to maintenance or scheduled outages in Queensland, and the resources required, in light of COVID-19. The Meeting Participants shared information relating to the timing of proposed maintenance and the specialist skills required. The Meeting Participants also discussed how current maintenance and outages were progressing, the impact of planned maintenance being delayed, extended or moved due to COVID related issues and the processes for carrying out work in light of COVID-19. It was agreed that going forward these meetings will be held on a fortnightly basis. The next meeting is scheduled for Friday 10 July 2020.

Finally, AEMO notes that the fortnightly industry update on AEMO's operational response to COVID-19 did not occur during the Reporting Period.

2. **Update to the Energy Coordination Mechanism**

The Energy Coordination Mechanism did not meet during the Reporting Period.
