Multi Operator Core Network (MOCN) proposal between Telstra and TPG

To Whom It May Concern

As the General Manager of Bellingen Shire Council (BSC), I am writing to express my support for the Telstra and TPG merger authorisation from the ACCC which is a public process.

BSC have been working collaboratively Telstra to improve regional connectivity and believe that this merger will provide better mobile reception that will provide better service for our regional area.

Regional connectivity is valuable to our region and in particular during weather events. We we will support this submission that promises to improve coverage and communication services in regional areas.

Yours faithfully

[REDACTED]
Liz Jeremy
