Subject: CPB Contractors – N10000537 – Submission'

Hi,

I am a subcontractor for CPB, recently I have utilised both KJ Transport Consultants and Castor for two different issues and found both to be extremely knowledgeable in the space of HVNL, I have previously had experiences with other auditors in this space that have had no knowledge of HVNL . I understand and support CPBs approach on this and see the benefits to road safety.

My previous experience in the Navy and in particular the incident on the Westralia, I am supportive of the auditing requirement and see that all CPB are doing is ensuring the quality of the audits by offering a selection of prequalified HVNL auditors. I wish this approach was implemented sooner as I think it has the potential to save lives.

Regards,

Tim Eato

Ask the INNOV8 Equipment team about our financing options for equipment sales.

BLADE TMA | LTMA | TRAFFIC CONTROL VEHICLES | CUSTOM BUILDS | VMS BOARDS | LIGHTING TOWERS

The advertisement features a night-time photograph of an INNOV8 Equipment yard. In the foreground, a green and white utility vehicle is parked. Behind it, a white truck with a large, illuminated lighting tower is visible. To the right, a white truck with a forklift is parked. In the background, a sign for 'INNOV8 EQUIPMENT' and 'THE HOT MASH' is visible. A green banner at the top right of the image contains the text 'Ask the INNOV8 Equipment team about our financing options for equipment sales.' A green banner at the bottom of the image lists various equipment types: 'BLADE TMA | LTMA | TRAFFIC CONTROL VEHICLES | CUSTOM BUILDS | VMS BOARDS | LIGHTING TOWERS'.
