

## **Submission by Northern Sydney Regional Organisation of Councils (NSROC)-22 December 2023**

NSROC supports SSROC's application in respect of joint procurement for commingled recycling processing services. NSROC agrees that the proposed conduct would result in the following public benefits: 1. increased competition 2. economic benefits through reduced transaction costs 3. environmental benefits. NSROC considers that the proposed conduct is unlikely to result in any public detriment consistent with the reasons outlined in the ACCC draft determination at 3.20.
